

COVID CLINIC GUIDELINES

- 🌿 The therapist will wear a visor during the whole treatment and a face mask as an extra preventative measure
- 🌿 The therapist will wear gloves during the entire treatment if you are pregnant if you suffer from a chronic condition, diabetes, cancer, and lung disease
- 🌿 The therapist will wear a clean uniform for each client
- 🌿 PVC couch cover and disposable face cradle cover will be used
- 🌿 The therapist will disinfect the couch with 99.9% alcohol between clients
- 🌿 The therapist will wash hands before, during and after treatment
- 🌿 As usual, a clean towel will be used for each client
- 🌿 The therapist will email clients a client consultation plus a pre-screening questionnaire to check about lung symptoms to reduce talking to a minimum
- 🌿 The treatment room will be purified after each treatment with an ozoniser purifier to kill germs and bacteria
- 🌿 A ceiling fan will keep the air moving
- 🌿 Hand sanitiser at the entrance, in the treatment room and the toilet
- 🌿 An infrared liquid soap dispenser will avoid skin contact
- 🌿 No face massages
- 🌿 Only card payment or bank transfer are accepted
- 🌿 Treatments strictly by appointments
- 🌿 The hands will dry with paper tissues
- 🌿 Clients will bring their water
- 🌿 Clients will bring a face mask which we will use during our brief communication
- 🌿 Clients will leave their shoes in the entrance, and they will be disinfected with 99.9% antibacterial alcohol
- 🌿 Self-care suggestions will be emailed
- 🌿 The clinic will be locked during the treatment, and no passer-by will enter it.
